

Intertwine Testimonial:

At Intertwine Corporation we partnered with Target Marketing Solutions and we've been very happy with the services. For starters, without spending any additional money on Google Adwords, we're already seeing a 10x increase in the number of inquiries through our website; and we attribute that directly to their expert knowledge of how Google and Bing work to help us get found by Buyers. Beyond that, they've worked extra hard to help us meet deadlines and they've gone the extra to mile to work with us without charging a fortune while we refine the messaging on our website.

We're looking forward to even more success when we begin a Google Adwords campaign with them in the coming months.

We highly recommend Target Marketing Solutions to everyone whose not selling enterprise software to the automotive industry for Customer, Program, Part and Project Management.
